WAVES
2019
VIENNA

14th International
Conference on
Mathematical and
Numerical Aspects
of Wave Propagation

14th WAVES
25 – 30 August
2019
Vienna, Austria

Venue

TU Wien
Getreidemarkt 9, Building BA, A-1060 Vienna

Invitation and Venue

The 14th International Conference on Mathematical and Numerical Aspects of Wave Propagation (WAVES 2019) will be held at Vienna University of Technology (TU Wien) in the heart of Vienna. This biannual conference series is one of the main venues for the dissemination of the latest advances in theoretical and computational modeling of wave phenomena, both in science and technology. The themes of the upcoming 14th WAVES include, but are not limited to, the following:

- Analytical & Asymptotic Methods
- Approximate Boundary Conditions
- Domain Decomposition
- Fast Computational Techniques
- Flow-Acoustic Interaction
- Forward and Inverse Scattering
- Guided Waves and Random Media
- Homogenization of Wave Problems
- Mathematical Problems in Optics
- Medical and Seismic Imaging
- Modelling Aspects in Photonics and Phononics
- Nonlinear Wave Phenomena
- Numerical Analysis
- Waves and Coastal Modeling

*WELCOME
TO
VIENNA*

2019

Deadlines

Abstract Submission	March 15th, 2019
Acceptance of Abstract	May 1st, 2019
Early Registration	May 15th, 2019
Requesting Letter of Invitation for Visa Application	June 1st, 2019
